COURSE DESCRIPTION

What roles do designers play in a field of constant flux while operating under homogeneous socio-economic conditions, such as the post-industrial mode of production and the information economy, which compels constant visual and textual consumption? What kind of relationships are designers expected to have within this dominant cultural landscape? We will explore these questions by closely examining contemporary conditions that forcefully shape the form and meaning of design practice and its outcomes. With these questions in mind, this studio course will introduce principles and investigate relationships between image, form, and meaning through the creation of images, text, and spatial and/or audio works.

LEARNING OBJECTIVES

- Actively explore and experiment with image, form, and meaning through methods and approaches that challenge preconceived notions of design and the cultural frameworks on which they are based.
- Acquire skills in working with others as a member of a team; to develop collaborative skills necessary for successful disciplinary and interdisciplinary team-based projects.
- Articulate and publicly communicate the trajectory of work developed and documented.
- Develop self-direction and time management skills that allow autonomy in one's design work.

GRADING & EVALUATION

You must earn points through various components, including but not limited to in-class exercises and activities, assignments, presentations, group projects, reading responses, and written peer reviews. Additionally, you will be asked to report your mid-term point status based on the course's point calculation method. No make-up projects will be offered, and project due dates will be strictly enforced. Additionally, students may be evaluated on strength of work and positive learning attitude (ability/willingness to accept critical feedback and improve work accordingly, timely submission, degree of visual and conceptual literacy, quality and depth of ideas/critical thought, and the appropriate, experimental application of your thinking/criticality in completed work) and contributions to the studio culture (participation in

MEETINGS

This is a face to face in person class, unless otherwise stated by the instructor.

ATTENDANCE POLICY

In-class time is critical, and attendance is required. You are allowed two (2) unexcused absences. On your third (3rd) unexcused absence, your final letter grade for the class will be lowered by one full letter grade (10% of the total points for the semester). For each additional unexcused absence after the fourth, your grade will be lowered by half a letter grade (5%). Accumulating more than six (6) absences of any kind will result in automatic course failure unless documented accommodations are arranged in advance.

To receive an "excused" absence, you must do this:

Notify the instructor before class begins that you will not be able to attend class and provide official documentation of a university-sanctioned reason to receive an excused absence. Military service, varsity sports travel, and illnesses are common excused absences when documented by a written note from a commanding officer, coach, or doctor. The instructor will not accept any documentation (e.g., doctor's note) submitted more than fourteen (14) days after the date of absence. Regardless of the type of absence, it is the student's responsibility to catch up on missed class content, announcements, and assignments. Requirements for class attendance, and other work in this course are consistent with university policies. Along with more information on how UF assigns grade points, you'll find these by visiting: <https://catalog.ufl.edu/graduate/regulations/>

TECHNOLOGY, FEES, AND EQUIPMENT USE

With questions related to your computer system and technology in the Graphic Design area, you can contact our Lab Technician, Michael Christopher (mchristo@ufl.edu). He can help diagnose problems and provide solutions.

HEALTH AND SAFETY

The goal of the SA+AH Health and Safety Program is to protect the health and welfare of all faculty, staff, and students and to cooperate with the University of Florida's Department of Environmental Health & Safety (EH&S). Michael Christopher is the Health and Safety administrator for the Graphic Design program. While there are very limited health and safety risks with the materials we typically use for graphic design, be aware that materials used in other areas often carry risks. It is your responsibility to store everything you bring in the studio safely. Do not bring in any materials that are hazardous or combustible as the graphic design studios are not equipped for this type of storage. Knowingly or repeatedly storing such items in the studio may result in disciplinary action and loss of access to studio space outside of class time as well as loss of storage space.

Also,

- Batteries, some monitors, and lamps from digital projectors, if broken, may release mercury. There are no known health hazards from intact materials.
- Do not use spray adhesives or do hazardous work in the studios.
- Do not block aisles, halls or doors with stored items or when working.
- Take items which do not fit into the trash to the dumpster, follow dumpster guidelines.
- All users must follow the S+AH Container Policy
- The GD Area policies prohibit use of hazardous materials, this applies to materials used in other areas. They may not be stored, ever, in the GD studios. Failure to adhere to these guidelines may affect your ability to use the studio unsupervised outside of regular class times.

UF POLICIES

Course Evaluations

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Click here for guidance on how to give feedback in a professional and respectful manner. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via ufl.bluera.com/ufl/.

Academic Integrity

Academic integrity means that if you use words, images, or ideas that are not your own, you must cite them. The UF Honor Code specifies a number of other behaviors that are in violation of this code and the possible sanctions.

Honesty Policy

An academic honesty offense is defined as the act of lying, cheating, or stealing academic information so that one gains academic advantage. As a University of Florida student, you are expected to neither commit nor assist another in committing an academic honesty violation. Additionally, it is the student's duty to report observed academic honesty violations. These can include: cheating, copying ideas, plagiarism, bribery, misrepresentation, conspiracy, or fabrication.

Students who experience learning barriers and would like to request academic accommodations should connect with the Disability Resource Center (352-392-8565, <https://disability.ufl.edu/students/get-started/>). Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
